BUENA VISTA PARK

City and County of San Francisco

It was known as Hill Park in 1867 when San Francisco's Committee on Outside Lands reserved the 36-acre, 589 ft. high slope as the first park in the city park system. They paid squatters \$88,250 to relinquish their claims to the hilltop. After its dedication as Buena Vista Park in 1894, John McLaren supervised the forestation of its hills. During Mayor Adolph Sutro's reign from 1894-98, San Francisco school children planted seedlings each Arbor Day. The summit became a view point for visitors and residents and, during the 1906 earthquake, people gathered there for five days to watch the fires downtown.

Soil Stabilization Products Company, Inc.

NaturalPAVE XL® Resin Pavement™, similar to hot mix asphalt, is a surface course pavement material that is reliant on the workmanship of the pavement contractor during placement operations and on the strength and stability of the base course and underlying layers upon which it is constructed. SSPCo is a supplier of pavement materials only and not a contractor, engineer, installer, or construction inspector.
